PEER2PEER²

MENTORING POTENTIAL

About:

PEER2PEER provides people with disability with mentors to support them in engaging in community and achieving their goals.

Be supported to build confidence, independent living skills or to gain employment while having fun and sharing experiences with a mate!

You could be supported to do anything from attending community events and activities, to playing sport, joining clubs, taking up hobbies like music or cooking, engaging in academic learning or volunteering.

Best of all, do all of this while developing a friendship and a connection with someone who you can trust, talk to and get advice from.

Importantly, you get to help in identifying and choosing your mentor(s).

Who is PEER2PEER for?

PEER2PEER is for anyone aged 12+ who has autism or an intellectual disability.

Cost:

The cost of PEER2PEER is aligned to the NDIS price guide and can be completely paid for out of a range of NDIS funding types.

EMPLOYMENT OPPORTUNITIES

We are looking to employ both people with and without disability to be mentors in the program!

Please contact us for details.
