PEER2PEER2

MENTORING POTENTIAL

About being a PEER2PEER Mentor:

PEER2PEER provides people with disability with mentors to support them in engaging in community and achieving their goals.

As a mentor you will support a person with disability to build confidence, independent living skills or to gain employment while having fun and sharing experiences.

You could be supporting them to do anything from attending community events and activities, to playing sport, joining clubs, taking up hobbies like music or cooking, engaging in academic learning or volunteering.

What is required to be a Mentor?

You can be a person with or without disability and Mentor Development Sessions will be offered to those wishing to take on a mentoring role for the first time.

Peer mentors are matched with young people and adults who are aspiring to greater independence through gaining confidence and skills to participate in community life.

Once you have been chosen by one of our clients as their peer mentor and meet our employment requirements you will be offered a position.

Our employment requirements include DHS Disability Employment Services Screening and a First Aid Certificate and some additional requirements if you will be working with young people under 18 years.

All positions will be casual, part time positions and will be paid at the Level 2 Social, Community, Home Care and Disability Award.
